consultation by the Home Office on the relaxation of licensing hours for the World Cup. In responding to the document the Council was asked to consider whether the determination of licensing hours should be determined centrally or should be a local decision. It was the Council's view that such matters were better determined at a local level. The use of TENs to extend licensing hours would enable the Police and Environmental Protection to have a say in which local premises could operate extended hours.

RESOLVED that the proposed repose to the consultation document, as set out in the report, be approved for submission to the Home Office.
