Other sources of performance data

Statistics and data – the way we collate and publish a range of council statistics, performance indicators, datasets and information has been updated. Pulling all this together (including information previously on the Datashare section of our website) will help us to maintain open and accessible information for customers, businesses, and other interested parties.

The new [Council Data](#) section at colchester.gov.uk/council-data is designed so that people can easily find out information we hold, our obligations on open data and transparency, as well as how to make a freedom of information request.

Categories include spending, business rates, democracy, housing, land, parking, planning and licensing, recycling and waste.

Annual reports – the Council produces annual reports on its performance in various areas. These are brought into one place on the Council's website [here](#) for ease of reference, and to make it easier for the public to find which annual reports are available.

[Single Data List](#) -this is a list of all the datasets that local government must submit to central government. The list is reviewed and updated annually. Local authorities are not obliged to provide any data which is not on the list without extra funding.
