

Report of	Assistant Director of Policy & Corporate	Author	Hayley McGrath ☎ 508902
Title	2018/19 Year End Review of Risk Management		
Wards affected	Not applicable		

1. Executive Summary

- 1.1 This report provides members with an overview of the Council's risk management activity undertaken during the financial year from 01 April 2018 to 31 March 2019.
- 1.2 Effective management of risk is essential to ensuring that the Council's aims and objectives are achieved. The Council has therefore approved a Risk Management Strategy, which is included in the policy framework. This provides a comprehensive risk management process that is embedded across the organisation and includes a strategic risk register (which is the responsibility of the senior management team), operational risk registers which are produced by each service, project risk monitoring and specific risk mitigation initiatives.
- 1.3 The Risk Management strategy and processes are reviewed annually to ensure that they are still appropriate to the Council's needs and continue to be effective in identifying and mitigating risks to its aims and objectives.
- 1.4 Key Messages:
 - The highest level risk on the strategic risk register is the potential impact of the United Kingdom leaving the European Union. This is followed by the difficulty to compete with the private sector in the recruitment (and retention) of staff with key marketable skills.
 - The potential impact of future government decisions to reduce public funding, failure or inappropriate management of a strategic partner and the delivery of the Garden Communities project, are still recognised as significant risks. These are outside of the direct control of the Council, however the impacts of these risks are mitigated as far as possible, and risks and controls identified in section 6 of the register – Assets and Resources – are a reflection of some of the work that is undertaken to ensure that the organisation can respond to these challenges.
 - Risk Management principles continue to be reinforced and embedded in the organisation. The 2017/18 Annual Audit letter, issued by the Council's external auditors, Ernst & Young, in August 2018, did not include any findings of anticipated risks occurring. This is further demonstrated by the repeated 'substantial' assurance rating from the Internal Audit review of the Risk Management function.

2. Recommended Decision

- 2.1 Note the Council's progress and performance in managing risk during the period April 2018 to March 2019.
- 2.2 Consider and comment on the current strategic risk register.
- 2.3 Approve the proposed risk management strategy for 2019/20 and recommend to Full Council that it be included in the Council's Policy Framework.

3. Reason for Recommended Decision

- 3.1 Cabinet has overall ownership of the risk management process and is responsible for endorsing its strategic direction. Therefore, the risk management strategy states that Cabinet should receive an annual report on progress and should formally agree any amendments to the strategy itself.
- 3.2 During the year progress reports are presented to the Governance & Audit Committee, detailing work undertaken and current issues. This report was presented to the Governance & Audit Committee on 30 July 2019, where they approved its referral to this meeting.
- 3.3 The Risk Management Strategy is one of the key corporate governance documents that supports the Constitution of the Council, and forms part of the Policy Framework. Accordingly, any amendments have to be approved by Full Council.

4. Alternative Options

- 4.1 There are no alternative options to consider

5. Background Information

- 5.1 The aim of the Council is to adopt best practice in the identification, evaluation, cost-effective control and monitoring of risks across all processes, to ensure that risks are properly considered and reduced as far as practicable.
- 5.2 In broad terms risks are split into three categories:
 - Strategic – those risks relating to the long term goals of the Council
 - Operational – risks related to the day-to-day operation of each individual service
 - Project – the delivery risks of specific initiatives.
- 5.3 Identified risks, in all three categories, are judged against levels of probability and impact to give them an overall score. This allows the risks to be shown as 'high, medium or low' which enables a prioritised action plan to be set for managing risks. A high score does not mean that a risk has, or will definitely, occur.
- 5.4 In many cases the causes of risks are outside of the Council's control, such as general economic issues. The Council cannot stop these risks from occurring (the probability score) but can put plans in place to mitigate against their effect if they occur (the impact score). Likewise, there are occasions that risks can be reduced with preventative actions but there is not much that can be done to mitigate their effect if they do occur, such as a failure to protect public resources. Therefore, some risks will tend to maintain the same score, regardless of the controls that the Council puts in place.

6 Work undertaken during the period

- 6.1 There were no fundamental changes to the risk management function, or the processes used to identify and control risk, during 2018/19.
- 6.2 An audit of the risk management function was carried out in February 2019. This produced four priority 2 recommendations and two priority 3 recommendations. These related to standardising the operational risk registers, updating training and development of the risk processes within Colchester Commercial Holdings Limited.
- 6.3 A significant proportion of the work undertaken during the year related to the preparations for the United Kingdom's exit from the European Union, especially around the possibility of there being no deal agreed for the exit. This included working with partners across Essex to mitigate the impacts.
- 6.4 Work has continued to develop the insurance and risk programmes for Colchester Commercial (Holdings) Limited, to ensure that emerging commercial risks are appropriately managed.
- 6.5 Support continues to be provided, reviewing the risk elements of event plans, to both the Colchester, and the Community Stadium, Safety Advisory Groups.
- 6.6 The risk registers for the Joint Museum Service and the North Essex Parking Partnership both continue to be produced and reported to the joint committees.

7 Strategic Risk Register

- 7.1 During 2018/19 the strategic risk register was reviewed by the senior management team every quarter and reported to the Governance & Audit Committee every six months. The current register is shown at appendix 1. These risks have been mapped onto a risk chart as shown at appendix 2.
- 7.2 The Corporate Governance Manager reviewed the strategic risks with each member of the Senior Management Team in March 2019, and in June 2019 the Performance Management Board (PMB) comprehensively, and robustly, reviewed the register to ensure that the identified risks were still appropriate, and that individual risk tolerances do not unduly influence the scores.
- 7.3 Several of the risks on the register are scored at the higher end of the scale. This is not an indication that they will definitely occur, rather that the council is cautious about its ability to influence the likelihood or the potential impact. A further review of these risks will be undertaken later in the current year.

8. Risk Management Strategy for 2019/20

- 8.1 The Council's current approach to managing risk was introduced in 2006/07. A requirement within the strategy, and also of the annual audit assessment, is to review the approach each year to ensure that it is still appropriate to the Council's needs.
- 8.2 Therefore a review has been undertaken and the strategy has been updated for 2019/20. The revised strategy is attached at appendix 3. There are no fundamental changes proposed to the risk process, with amendments only to external review comments and the updating of external guidance references.

9. Equality, Diversity and Human Rights implications

- 9.1 There are no equality, diversity or Human Rights implications as a result of this report.

10. Strategic Plan References

- 10.1 The strategic risk register reflects the objectives of the strategic plan and the actions have been set with due regard to the identified key strategic risks. Therefore, the risk process supports the achievement of the strategic objectives.

11. Risk Management Implications

- 11.1 The failure to adequately identify and manage risks may have an effect on the ability of the Council to achieve its objectives and operate effectively.

12. Other Standard References

- 12.1 There are no particular references to consultation or publicity considerations or financial; community safety or health and safety implications.

2a	The expectations of our customers, set alongside the financial constraints, will create challenges to service delivery, our channel shift ambitions and the reputation of the authority.	3	4	12				The Authority fails to deliver the standards of service and delivery which our customers expect, especially in relation to self-service and the reliance on technology capabilities.	Monitor the engagement and consultation processes, to ensure customers are able to inform service priorities and delivery, whilst managing their methods of interaction with the organisation. This will be evidenced by reporting the pattern of usage of the routes used by customers and savings achieved.	Strategic Director of Customer and Relationships	September 2019
2b	The expectation remains that the Council will step in to deliver services when other providers either fail or reduce service provision	3	3	9				The Council suffers from a loss of reputation as customers' expectations are not met. There is increased demand on existing services leading to a reduction in standards of delivery.	Ensure that Cabinet set a clear and consistent message about the role of CBC for customers and partners.	Strategic Director of Customer and Relationships	September 2019
2c	Impact of the implementation of Universal Credit in Colchester could lead to additional work for CBC to help customers apply for the new single benefit. There will be a transition period whereby residents move to the new application which could be difficult for some of our more vulnerable customers.	2	3	6				The Council fails to support our most vulnerable residents leading to an increase in crisis intervention. DRAFT Risk Management Strategy 2019/20

A guide to the Council's approach to managing risk. Draft for committee approval.

RISK MANAGEMENT STRATEGY

This document outlines the Council's commitment to managing risk in an effective and appropriate manner. It is intended to be used as the framework for delivery of the Risk Management function and provides guidance to ensure management of risk is a routine process for all services.

INTRODUCTION

Strategy will ensure that:

1. The management of risk contributes towards ensuring effective service delivery and the achievement of the Council's strategic objectives.
2. Members and the Senior Management Team own, lead and support on risk management.
3. Ownership and accountability are clearly assigned for the management of risks throughout the Council.
4. There is a commitment to embedding risk management into the Council's culture and organisational processes, at all levels, including strategic, programme, project and operational
5. All members and officers acknowledge and understand the importance of risk management as a good governance process, by which key risks and opportunities are identified, evaluated and managed.
6. Effective monitoring and reporting mechanisms are in place to continuously review the Council's exposure to, and management of, risks and opportunities.
7. Best practice systems for managing risk are used throughout the Council, including mechanisms for monitoring and reviewing effectiveness against agreed standards and targets.
8. Accountability to stakeholders is fully demonstrated through periodic progress reports and an annual statement on the effectiveness of and the added value (benefits) from the Council's risk management strategy, framework and processes.
9. Where possible the Council's approach is regularly assessed by an external, independent body against other public sector organisations, national standards and Best Practice.
10. The Risk Management Strategy is reviewed and updated annually in line with the Council's developing needs and requirements.

Endorsement by Adrian Pritchard, Chief Executive

“Colchester Borough Council is committed to ensuring that risks to the effective delivery of its services and achievement of its overall objectives are properly and adequately controlled. It is recognised that effective management of risk will enable the Council to maximise its opportunities and enhance the value of services it provides to the community. Colchester Borough Council expects all officers and members to have due regard for risk when carrying out their duties.”

Risk Management is the control of business risks in a manner consistent with the principles of economy, efficiency and effectiveness. It is an essential performance management process to ensure that both the long and short term objectives of the Council are achieved and that opportunities are fully maximised.

Risk Management is not about eliminating risk, as this would limit the ability of the organisation to develop and deliver its ambitions. Its purpose is to recognise the issues that could effect the achievement of objectives and develop actions to control, or reduce, those risks. Acknowledgement of potential problems and preparing for them is an essential element to successfully delivering any service or project. Good management of risk will enable the Council to rapidly respond to change and develop innovative responses to challenges and opportunities.

The ‘Delivering Good Governance in Local Government’ 2016 framework, jointly issued by The Chartered Institute of Public Finance & Accountancy and the Society of Local Authority Chief states that there are seven core principles of good governance including ‘Managing risks and performance through robust internal control and strong public financial management’. The document goes on to state ‘Local government needs to ensure that the organisations and governance structures that it oversees have implemented, and can sustain, an effective performance management system that facilitates effective and efficient delivery of planned services. Risk management and internal control are important and integral parts of a performance management system and are crucial to the achievement of outcomes. Risk should be considered and addressed as part of all decision making activities.’

BACKGROUND

A process for managing risks was first adopted by the Council in 2003 and since then has been developed to ensure that it continues to be an effective management system. This strategy defines Colchester Borough Council's definition of risk and the processes to be followed.

In broad terms risks are split into three categories:

- Strategic – those risks relating to the long term goals of the Council.
- Operational – risks related to the day-to-day operation of each individual service.
- Project – consideration of the risks occurring as a result of the Council's involvement in specific initiatives.

The following are some of the practical ways that risks are managed and how effectiveness is measured:

- Provision of a comprehensive strategic register, that is regularly reviewed.
- Provision of operational risk registers for all service areas.
- Consideration of risk in Committee reports.
- Development of a comprehensive risk register for the project management programme and consideration of risk as a project management tool.
- Successful internal and external assessment.
- Provision of advice to other authorities regarding our management of risk.

This has led to a practical and workable approach to managing risk, which has resulted in the Council becoming more risk aware and actually taking more risks, as demonstrated by the comprehensive project risk register. Colchester is also highly regarded for managing risk by both our insurers and other authorities.

The 2018/19 internal audit of risk management gave a substantial assurance opinion. Six recommendations were raised during the audit relating to embedding the risk management process in Colchester Commercial Holdings Company Ltd, development of e-learning and reporting of operational risk registers.

OWNERSHIP

The responsibility to manage risk rests with every member and officer of the Council however it is essential that there is a clearly defined structure for the co-ordination and review of risk information and ownership of the process.

Appendix 3 is from the CIPFA/SOLACE risk management guide, Chance or Choice. It is a generic map of responsibility for each part of the risk management process.

The following defines the responsibility for the risk management process at Colchester:

Cabinet – Overall ownership of the risk management process and endorsement of the strategic direction of risk management.

Portfolio Holder for Business and Resources – Lead Member for the risk management process

Governance and Audit Committee – Responsible for reviewing the effectiveness of the risk management process and reporting critical items to Cabinet as necessary.

Performance Management Board (PMB) – Ownership of the strategic risks and overview of the operational risks. Actively support the Risk Management Strategy and framework.

Chief Operating Officer – Lead officer for the risk management process, demonstrating commitment to manage risk.

Assistant Director Policy & Corporate – Responsible for co-ordination of the risk management process, co-ordinating and preparing reports and providing advice and support.

All Assistant Directors – Ownership, control and reporting of their service's operational risks. Contribute to the development of a risk management culture in their teams.

All Employees – To understand and to take ownership of the need to identify, assess, and help manage risk in their individual areas of responsibility. Bringing to the management's attention at the earliest opportunity details of any emerging risks that may adversely impact on service delivery.

Internal Audit, External Audit and other Review Bodies – Annual review and report on the Council's arrangements for managing risk throughout the Council, having regard to statutory requirements and best practice. Assurance on the effectiveness of risk management and the control environment.

AIMS & OBJECTIVES

The aim of the Council is to adopt best practices in the identification, evaluation, cost-effective control and monitoring of risks across all processes to ensure that risks are properly considered and reduced as far as practicable.

The risk management objectives of Colchester Borough Council are to:

- Integrate risk management into the culture of the Council
- Ensure that there are strong and identifiable links between managing risk and all other management and performance processes.
- Manage risk in accordance with best practice
- Anticipate and respond to changing social, environmental and legislative requirements
- Prevent injury, damage and losses and reduce the cost of risk
- Raise awareness of the need for risk management by all those connected with the Council's delivery of services.
- Ensure that opportunities are properly maximised through the control of risk.
- Reduce duplication between services in managing overlapping risks and promote 'best practise'.

STRATEGIC RISK MANAGEMENT

Strategic risks are essentially those that threaten the long term goals of the Council and therefore are mainly based around meeting the objectives of the Strategic Plan. They may also represent developing issues that have the potential to fundamentally effect service provision, such as proposals to dramatically change the corporate assessment process.

Strategic risks will be controlled using a register that will detail the risks and associated controls. The register will be owned by the Senior Management Team, with ownership for risks being assigned to individual officers, and will be reviewed every quarter. The strategic risks will be reported to the Governance & Audit Committee at least twice a year.

OPERATIONAL RISK MANAGEMENT

Operational risks are those that threaten the routine service delivery of the Council. Each service area will have their own operational risk register that details the risks associated with providing the service. These registers will be reported, in summary format, to the Senior Management Team and committee on an annual basis. High risks and the success in controlling them will be reported to Senior Management Team on a quarterly basis, as these will help in the formulation of the strategic risk register.

LINKS

It is essential that risk management does not operate in isolation to other management processes. To fully embed a risk management culture it has to be demonstrated that risk is considered and influences all decisions that the Council makes. It is essential that there is a defined link between the results of managing risk and the following:

- The Strategic Plan
- Service Plans
- Revenue and Capital Budgets
- Annual Internal Audit Plan

ACTION REQUIRED

The following actions will be implemented to achieve the objectives set out above:

- Considering risk management as part of the Council's strategic planning and corporate governance arrangements.
- Ensuring that the responsibility for risk management is clearly and appropriately allocated
- Maintaining documented procedures for managing risk
- Maintaining a corporate approach to identify and prioritise key services and key risks across the Council and assess risks on key projects.
- Maintain a corporate mechanism to evaluate these key risks and determine if they are being adequately managed and financed.
- Establish a procedure for ensuring that there is a cohesive approach to linking the risks to other management processes
- Including risk management considerations in all committee reports
- Providing risk management awareness training to both members and officers.
- Developing risk management performance indicators.
- Establishing a reporting system which will provide assurance on how well the Council is managing its key risks and ensures that the appropriate Members and officers are fully briefed on risk issues.
- Preparing contingency plans in areas where there is a potential for an occurrence to have a significant effect on the Council and its business capability.
- Regularly reviewing the risk process to ensure that it complies with current national Governance Standards and Best Practice.
- Developing risk management links with key partners and contractors, to ensure that principles are adopted in all areas of service delivery.

REVIEW

To ensure that the risk management process is effective it will need to be measured and reported to P.M.B., Governance & Audit Committee and Cabinet. As well as a structured reporting process of risks and controls during the year there will need to be an annual review demonstrating the success of the following:

- The inclusion of risk management principles within Service Plans and budgets.
- The development of the Internal Audit plan based on the risk issues.
- Achievement against identified performance indicators.
- Members consistently ensuring managing risk is considered as part of the decision making processes within the Council.
- Service managers making recommendations that regard risk as an opportunity as well as a threat.
- Risk management principles being considered in service reviews, for example in areas such as options for change and service improvements.
- Changes in risk being independently identified and assessed by Service Managers
- Compliance with the use of resources criteria and self assessment requirements.

Suitable opportunities to benchmark the risk management service against other organisations should also be explored, to ensure that it is effective and the work carried out by the Council conforms to best practise.

The three appendices attached give greater detail of key areas:

Appendix 1 – Outline of the risk management process

Appendix 2 – Details of how Risk Management will be reported.

Appendix 3 – CIPFA guidance on Risk Management Responsibilities

APPENDIX 1

The Risk Management Process

Risk Management is a continual process of identifying risks, evaluating their potential consequences and determining the most effective methods of controlling them and / or responding to them. The risks faced by the Council are constantly changing and the continual process of monitoring risks should ensure that we can respond to the new challenges. This process is referred to as the risk management cycle.

Stage 1 – Risk Identification

Identifying and understanding the hazards and risks facing the council is crucial if informed decisions are to be made about policies or service delivery methods. There is detailed guidance available on how to identify risks which includes team sessions and individual knowledge. Once identified a risk should be reported to the relevant Assistant Director who will consider its inclusion on the relevant risk register. If the risk is identified in between register reviews then it is reported to the Risk & Resilience Manager for information and the Head of Service is responsible for managing the risk.

Stage 2 – Risk Analysis

Once risks have been identified they need to be systematically and accurately assessed. If a risk is seen to be unacceptable, then steps need to be taken to control or respond to it.

Stage 3 – Risk Control

Risk control is the process of taking action to minimise the likelihood of the risk event occurring and / or reducing the severity of the consequences should it occur.

Stage 4 – Risk Monitoring

The risk management process does not finish with the risk control procedures in place. Their effectiveness in controlling risk must be monitored and reviewed. It is also important to assess whether the nature of the risk has changed over time.

APPENDIX 2

Reporting

No matter how good the process to identify and control risks is, it will not be effective unless the information gained from it is reported and used to influence other management issues / processes. Therefore, it is essential that there is a defined process and timetable for reporting the results of the risk management process to both members and officers.

Types of Report

- The strategic risk register is reviewed a minimum of twice yearly by P.M.B., with interim reports quarterly as required.
- Six monthly review of the operational risk registers and a summary report of these reviews to P.M.B.
- Project risks are reported through the project management process and reported to the project management board. Significant issues will also be included in the reporting process to P.M.B.
- A six monthly report is provided to Committee (Governance and Audit) detailing the current strategic and high level operational risks and the progress made in controlling them.
- An annual report reviewing Risk Management activity and an action plan for the coming year – taking into account changes in methodology and results of internal and external reviews. Going to P.M.B., Governance & Audit and Cabinet.
- Ad-hoc reports need to be provided to P.M.B. when new, significant risk issues arise.

The reports can be summarised as follows:

	Services	P.M.B.	Governance & Audit	Cabinet
Quarterly		Review of strategic risk register		
6 Monthly	Review of operational risk register	Summary of operational review from services	Progress report of strategic & high level operational risks	
Yearly		Scrutiny of annual progress report to cttee on R.M.	Endorsement of annual progress report on R.M.	Summary of past years work on R.M.
