Our Colchester - The Strategic Plan 2018-21

This plan describes the priorities and direction for our borough. It sets out the Council's ambitious goals to help make Colchester an even better place to live, work and visit. We will work with many partners to get the best for our residents.

To help us decide on these priorities we invited members of the public to share their thoughts with us. We did this in a consultation which included an online survey, and a series of focus groups with the public, independently selected to make sure we included all sections of our communities.

Residents told us:

- Colchester is a welcoming place and should continue to be so
 - They are positive about Colchester and see it a good place to live
 - They are proud of the long and prominent history of the town
 - They like the countryside surrounding Colchester, and the borough's open spaces such as Castle Park
 - They understand the importance of growth for the town and borough, but want infrastructure to keep pace
 - They want the Council to play its part to maximise the availability of affordable housing and encourage inward investment to maximise job opportunities
 - They want the Council to support the most vulnerable in society, and to help reduce homelessness.
-
